SAFETY RECALL TO REPLACE YOUR VEHICLE'S PARK BRAKE PEDAL ASSEMBLY

Dear Wrangler Owner:

This notice is sent to you in accordance with the requirements of the National Traffic and Motor Vehicle Safety Act.

DaimlerChrysler Corporation has determined that a defect, which relates to motor vehicle safety, exists in some **1990 through 1995 model year Jeep® Wrangler vehicles**.

The problem is...

The park brake pedal assembly on your vehicle (identified on the enclosed form) **may self-release without warning, allowing unintended vehicle movement. Unintended movement of the vehicle could injure those in and/or near the vehicle or cause an accident without warning.**

***What DaimlerChrysler
and your dealer will
do...***

DaimlerChrysler will repair your vehicle free of charge (parts and labor). To do this, your dealer will replace the park brake pedal assembly. The work will take less than one hour to complete. However, additional time may be necessary depending on how dealer appointments are scheduled and processed. **This recall does NOT include replacement of any base service brake components (brake shoe and lining, drums, wheel cylinders, etc.). If base service brake repairs are required, the additional associated costs are the owner's responsibility.**

***What you must do to
ensure your safety...***

- Simply **contact your dealer** right away to schedule a service appointment. Ask the dealer to hold the part for your vehicle or to order it before your appointment.
- **Bring the enclosed form with you to your dealer.** It identifies the required service to the dealer.
