***Fuel consumption and CO2 figures determined on the basis of the new WLTP test procedure as per Regulation (Regulation (EU) 2018/1832). Only compare fuel consumption and CO2 figures with other cars tested to the same technical procedures. Figures for Compass were obtained after the battery had been fully charged and using a combination of battery power and fuel. These figures may not reflect real life driving results, which will depend upon a number of factors including the accessories fitted (post-registration), variations in weather, driving styles and vehicle load. Additional equipment and or options may also affect fuel consumption and the CO2 emissions produced.
