You spend
$1,750
more in fuel costs over 5 years compared to the average new vehicle.

Acme

Actual results will vary for many reasons, including driving conditions and how you drive and maintain your vehicle. The average new vehicle gets 26 MPG and cost $7,000 to fuel over 5 years. Cost estimates are based on 15,000 miles per year at $2.45 per gallon. 35363 MPG is miles per gasoline gallon equivalent. Vehicle emissions are a significant cause of climate change and smog.
